RE: ADM&N Proposal #R9704.69
Letter of Interest and
Statement of Qualifications
for Street Scape Improvements
to St. Botolph Street

Dear Mr. Reavis:

Allen, Demurjian, Major & Nitsch, Inc. is pleased to submit this Letter of Interest and Statement of Qualifications to the Boston Redevelopment Authority to provide resident engineering and design services for Street Scape Improvements to St. Botolph Street, Boston, Massachusetts. We wish to express our enthusiasm to work in association with the Boston Redevelopment Authority to revitalize the urban environment of Boston. Street and sidewalk improvements do improve the safety and quality of life in the city and we have the experience and expertise to perform the services requested.

Allen, Demurjian, Major & Nitsch, Inc. has successfully provided engineering, land surveying and architectural services to its clients for over 15 years. We maintain a list of clients which include large corporate clients as well as major federal, state and local public agencies. Our strength is our ability to meet our Client's needs for a thorough analysis of a problem and design solutions which incorporate or enhance existing conditions.

This Letter of Interest will outline the following submission requirements:

- Relevant project experience
- References
- Associations with public agencies
- Personnel to be assigned to project
- Allen, Demurjian, Major & Nitsch, Inc.'s ability to perform services expeditiously
- Compliance with City of Boston residency and affirmative action program requirements

PROJECT EXPERIENCE

BRA Congress Street Footbridge; Boston, Massachusetts: For the Boston Redevelopment Authority in conjunction with Graham Gund Architects, Inc., Allen, Demurjian, Major & Nitsch, Inc. prepared topographic, property and utilities plan for the Congress Street Footbridge.
Reference: David Perry, Graham Gund Architects, Inc. (577-9600)

Hayes Square Rehabilitation Project; Charlestown, Massachusetts, and Thomas Square Rehabilitation Project; Charlestown, Massachusetts: In both projects, Allen, Demurjian, Major & Nitsch, Inc. engaged in a contract for survey services with the Charlestown Preservation Society. We performed a topographic survey using USGS datum and provided a topographic plan including existing features, utilities and proposed construction. In addition, Allen, Demurjian, Major & Nitsch, Inc. is currently providing professional engineering services that encompass the following scope of work; preparation and drafting of construction documents, on-site observation for construction management, engineering consultation and drafting.
Reference: Nicholas Reed, Architect (721-5708)

Street Surveys, City of Cambridge Department of Public Works; Cambridge, Massachusetts: Allen, Demurjian, Major & Nitsch, Inc. is currently performing research and reconnaissance surveys and preparing plans at 30 locations, prior to the reconstructions of the city streets. In addition, we are performing field, office and consulting surveying services to provide the City of Cambridge with written recommendations for establishment of a city-wide Survey Control Network.
Reference: Joan Lastovica, P.E., City Engineer, City of Cambridge (498-9051)

Massachusetts Water Resources Association; Boston, Massachusetts: Allen, Demurjian, Major & Nitsch, Inc. has an ongoing contract to perform general professional surveying services scheduled in four (4) separate tasks for Deer Island. The tasks involve an investigation and research of property, field survey, horizontal and vertical control for mapping as directed by Aerial Survey Corp., calculation and setting of interior and exterior property lines and stake out of property.
Reference: Robert Otoski, MWRA (242-0230)

Consulting Engineering, Town of Groton, Massachusetts: Allen, Demurjian, Major & Nitsch is currently the Consultant to the Groton Planning Board, Conservation Commission and Board of Selectmen. Work performed includes: review of site plans; review of preliminary and definitive subdivisions; review of Notices of Intent; review of roadway and utility designs for constructability and conformity to Town and State regulations; field observation and reporting of construction to assure that proper construction standards are being met; and review of requests for release of performance bonds.

Boston Redevelopment Authority: R9704.69

March 25, 1988

Page 3 of 6

Somerville Street Improvement Program, Somerville, Massachusetts:
Consultants to the Department of Public Works to prepare detailed plans and specifications for the reconstruction and resurfacing of 12,400 linear feet of road surface on eleven different streets. Design included both brick and concrete sidewalks, curbing, wheelchair access ramps, curb cuts for drives, landscaped areas, and a new storm water drain system.

Boston Ballet; Boston, Massachusetts: Allen, Demurjian, Major & Nitsch, Inc. is providing field and office land surveying services to accomplish the following tasks: research public records and deeds in reference to subject property, conduct field survey, produce certified plan, perform a topographic survey with provisions for detailed location and elevations of street lines, utilities, easements and encroachments and to produce a topographic plan of the building and site. Above services are under the direction of Graham Gund Architects, Inc.
Reference: D. David Brown, General Manager, Boston Ballet (542-1323)

Boston Properties, Kendall Square; Cambridge, Massachusetts:
Professional surveying services have been provided over the past 14 years for the development of the 27 acre urban renewal project at Kendall Square. Initial completion of control surveys and preparation of tract disposition plans for this site were accomplished for the Cambridge Redevelopment Authority. We performed field surveys for the determination of the Cambridge-Somerville city line. In addition, we provided site design services for the parcels for Biogen, Symbolics, the Whitehead Institute and the Marriott Hotel with the architects for each building. The latest phase is the site development of the parking garage tract on Parcel 2.
Reference: David Barrett, Senior Vice President, Boston Properties (262-6500)

In addition, we have worked in close association with Pat Loheed/Landscape architect. The following projects, for which Allen, Demurjian, Major & Nitsch, Inc. performed surveying and/or site engineering services, best represent our experience of working on sites which are focal points of aesthetics, safety and recreation in the City of Boston and surrounding areas:

Harold Wasgatt Playground, Everett, Massachusetts

Edgerly Road Park, Boston, Massachusetts

Oak Square, Brighton, Massachusetts

Baptist Walk, Watertown, Massachusetts

REFERENCES

The above projects best represent Allen, Demurjian, Major & Nitsch, Inc.'s ability and expertise to perform work similar to that requested by the Boston Redevelopment Authority. References for the above projects are mentioned with the description. We have provided a list of additional references for your further consideration.

ASSOCIATION WITH PUBLIC AGENCIES

Allen, Demurjian, Major & Nitsch, Inc. takes pride in our association with public agencies in Boston and the surrounding areas. In Boston, we have experience working in close association with the Public Facilities Department. For the past two years, we were one of the firms chosen as a recipient of the Multi-Vendor Design Contract. This contract extends from July 1 through June 30 of the following year and work is apportioned as it develops.

As mentioned under Project Experience, Allen, Demurjian, Major & Nitsch, Inc. also is currently performing survey services to the Department of Public Works in Cambridge.

Our association with the Boston Redevelopment Authority originated with our client, Graham Gund Architects, Inc., for the Congress Street Footbridge. We welcome the opportunity for further work.

PERSONNEL

Persons assigned to the project are:

Sal Tecce	Business Manager
Judith Nitsch, P.E.	Principal, Civil Engineer
Michael Guilmet	Senior Project Manager, Civil Engineer
Hans Mertsch	Survey Project Manager

Their resumes are enclosed.

ALLEN, DEMURJIAN, MAJOR & NITSCH, INC.'S ABILITY TO PERFORM SERVICES EXPEDITIOUSLY

The Boston Redevelopment Authority anticipates the following services to be performed:

- An existing conditions survey and analysis.
- Full design documentation from schematic to contract documents.

March 25, 1988

Page 5 of 6

- Assistance in contract bidding and preparation.
- Resident engineering services.

Allen, Demurjian, Major & Nitsch, Inc. has the ability to perform expeditiously these services for street scape improvements to St. Botolph Street. The references given for the projects mentioned above and the list of additional references confirm Clients' satisfaction with our performance.

CITY OF BOSTON RESIDENCY AND AFFIRMATIVE ACTION PROGRAM REQUIREMENTS

It is the policy of Allen, Demurjian, Major & Nitsch, Inc. to provide equal employment opportunity to all persons without regard to race, color, religion, sex, age or national origin. Allen, Demurjian, Major & Nitsch, Inc., although not an MBE or WBE, is required by our contract with the City of Cambridge Department of Public Works to aim for 10% minority/women hours on their project; we are proud to report that over 25% of the hours have been performed by women and minorities. We have women and/or minority representation in all departments at both of our offices and throughout our upper management positions as well.

Twenty-six percent (26%) of our firm's total technical staff are minorities and women. Thirteen point three percent (13.3%) of this office's staff are Boston residents.

In closing, Allen, Demurjian, Major & Nitsch, Inc. has the experience and expertise to provide the resident engineering and design services for Street Scape Improvements to St. Botolph Street. Should you have any questions or require additional information, please feel free to call. We look forward to hearing from and working with you.

Very truly yours,

ALLEN, DEMURJIAN, MAJOR & NITSCH, INC.

Sal Tecce

EDUCATION

Northeastern University Associates Degree Program in Civil Engineering	Boston, Massachusetts
Wentworth Institute of Technology Certificate Highway & Construction Surveying	Boston, Massachusetts
Lee Institute of Real Estate Certificate - Residential and Investment Property	Boston, Massachusetts
Dale Carnegie Institute Certificate - Public Speaking	Boston, Massachusetts
M.B.T.A., Seminars Certificate - Business Management and Plan & Equipment Design	Boston, Massachusetts

LICENSES

Commonwealth of Massachusetts Notary Public (Commission expires 2/24/89)	Boston, Massachusetts
Commonwealth of Massachusetts Licensed Construction Supervisor	Boston, Massachusetts

EXPERIENCE

Mr. Tecce has more than 20 years experience as a Principal, Operating Vice President and Construction Manager on multi-million dollar, design and/or construction, projects in the New England area. In addition, he also has experience as a Chief Estimator, Project Engineer and Chief of Survey.

Allen, Demurjian, Major & Nitsch, Inc. Consulting Engineers, Architects, and Land Surveyors Cambridge, Massachusetts	Business Manager
---	------------------

Responsible for design and implementation of a cost and financial management system and development of New Business under the direction of the President, Lawrence C. Allen.

R. Zoppo Co., Inc.
Avon, Massachusetts

Vice President
Operations

Instrumental in developing general contracting diversification in the Heavy and Marine construction areas. Responsible for training staff in the management of all heavy and highway projects. Reviewed all plans relative to commercial aspect of the company. Prime construction contracts - Southeast Expressway \$1.5 million bridge deck rehabilitation; \$2 million Massachusetts D.P.W. Little Mystic Bridge Project in Charlestown; equity position on real estate development projects both commercial and residential. Review of all preliminary designs of residential units in Winthrop, Foxboro and Marshfield; design and construction of commercial property in Norwood, Massachusetts.

Modern Continental Construction Co., Inc.
Cambridge, Massachusetts

Construction Manager

Served as Chief Estimator and Construction Manager on large Heavy & Highway contracts throughout New England. Implemented training programs in estimating, operations, cost control and survey in the company on large Massachusetts Transit Projects. In charge of new business with joint venture partners, set up of staff on operational projects & negotiations with organized labor. Prepared cash flow projections and unaudited financial statements for bonding company. In charge of Massachusetts Bay Transportation Tunnels, and Cut & Cover subways, bridge projects, sewer and water line projects, MBTA Station rehabilitation projects and wastewater treatment plants. Total construction volume \$30 million. Also reviewed all proposals on development ventures.

Massachusetts Bay Transportation Authority
Boston, Massachusetts

Project Manager

Responsible for cost development as well as project designs for the Commuter Rail Construction Program. Capital Improvement budget was over \$60 million for new and rehabilitation construction projects. Provided technical assistance and training on financial and management systems, including budget control systems. Acted as Construction Manager on prime MBTA construction contracts from railroad rehabilitation to station modernization. Held position on Design Review Committee participating in the award of over \$30 million worth of engineering and architectural design contracts. Working relationships with Parsons/Centec, DeLeuw Cather, S.O.M. and T.K. Dwyer.

Penta Construction Co., Inc.
Long Island, New York

Principal
(Vice President)

Formed Penta with three other people with capital raised through private stock offering. The company was formed to bid and work on Mass Transit projects in New York, Atlanta, Miami and New England areas. Were successful on three contracts totaling \$7 million.

Horn Construction Co., Inc.
Merrick, New York

Superintendent/
Cost Engineer/
Project Engineer

Supervision of three construction projects in the Boston area. Contracts were with MBTA: \$1 million new track and electrical project from Charlestown to Oak Grove, Melrose; \$1.5 million Wellington Yard track and drainage project, Medford; \$1.5 million Greenline track and station reconstruction. Controlled all planning, survey expenses, scheduling, equipment coordination, cost control, extra work orders and claims, and acted as primary representative to the MBTA.

Somerville Engineering
Somerville, Massachusetts

Project Engineer/
Surveyor

Directly in charge of all survey, field layout and calculations of MBTA construction projects including new track & utilities layout, for the South Bay Yard in South Boston and the South Shore Line Columbia Road to Broadway..

Whitman & Howard
Needham, Massachusetts

Chief of Party/
Field Engineer

Extensive sewer and water line projects in New England area. Extensive experience in property surveys in city and New England areas. Participated in the engineering aspects on dam and reservoir project in Woburn/Burlington from preliminary to design and finally to construction.

Massachusetts Army National Guard
101st Artillery Battalion
Commonwealth Avenue
Boston, Massachusetts

1967-1973

Assigned to Headquarters Survey Section, served as Section Survey Chief responsible for artillery placement and target control. Reviewed and/or revised Coordinate Mapping Systems utilized for all artillery placements.

SUMMARY

Ms. Nitsch has been very active in the past thirteen years in the design and project management of many types of residential and commercial developments. In addition to the design and layout of roads, subdivisions, parking areas, subsurface sewage disposal systems, and drainage facilities, Ms. Nitsch has made numerous project presentations to local Planning Boards, Zoning Boards of Appeals, Conservation Commissions, Boards of Health, Boards of Selectmen, City

Councils, and neighborhood groups, as well as State and Federal Agencies. She has served as a consultant to the Groton Planning Board, the Groton Conservation Commission, the Pepperell Conservation Commission, the Plainville Conservation Commission, the Wrentham Conservation Commission, the Wrentham Planning Board, and the Rockport Conservation Commission.

A partial listing of projects with their locations that were designed by and/or under the direct supervision of Ms. Nitsch includes:

- Subdivision design and permitting for 25-Lot Cluster Residential Development, Holliston, Massachusetts
- Design of 200-Lot Residential Subdivision, North Attleboro, Massachusetts
- Design of Shopping Center Site, Great Road, Acton, Massachusetts
- Road Redesign, Wellesley Street, Weston, Massachusetts
- Parking Layout and Site Design, Showcase Cinema addition, Seekonk, Massachusetts
- Site Engineering, Subdivision Design and Condominium Layout, Ricci Farm, Lincoln, Massachusetts
- Site Design and Engineering for General Cinema Corporation for projects in Georgia, Indiana, Louisiana, Massachusetts, Michigan, Minnesota, New York, Ohio, Pennsylvania, South Carolina, Tennessee, and Texas
- Expert Witness Testimony, Dedham Superior Court, for Pine Manor College, Brookline, Massachusetts
- Engineering Review of Preliminary and Definitive Residential Subdivisions for the Town of Groton Planning Board and Conservation Commission
- Site Design and permitting for a 3-Building, 11-acre Industrial Park, Birch Street, Milford, Massachusetts
- Site Design and permitting for building addition, Leading Edge Hardware Products, Inc., Canton, Massachusetts
- Site Design and permitting, including subsurface sewage disposal system, for Condominium Office Building, Attleboro, Massachusetts
- Site Design and permitting for 49-acre Industrial Subdivision, Medway, Massachusetts
